Wassurserox, Dec. 13, 1800.

That you may see that my remarks about L. gan's speech are correct, I send you the officir report of it in the Globe. The bitterest con Large suction sale of new and second hasd furniture and household goods, this morning, by Gilbert & Sampson, at their store, No. 83 Lake street. TRINITY CHURCH CITY Missions.—Arrangements have been made for an Episcopal City Mission by this Parish. Contributions and applications for sid may be made to Mr. G. W. Patten, Superintendent, or to Rev. N. H. Sahansik. Democratic friends in his owe district are in the practice of doing, vis: send them South, sell, them to the first slave-driver, and pocket the proceeds. You observe that he declares that "the Democrats in Illinois have to do all the dirty work of catching runaway slaves," for the slaveholders, and that he never knew or heard of a instance of the catching transfer of t

alayaholders, and that he never knew or heard of an instance of Republicans voluntarily arresting and returning fugitives.

Tou will see from the cross-examination to which anti-Lecompton Clark and Haskins subjected him, that he goes the whole hog proslavery Democrat; that he casts away all his former anti-Lecompton, popular sovereignty professions, as filthy, worn out rage, and dresses himself from head to foot in Danite garments. His speech, though wretchedly delivered, is significant and important aslaying down the future platform of the Democratic party. He evidently spoke by authority of Douglas. McClerand endersed all his said as he went along—frequently chiming in soite coes, with an affirmative response. I expect to see his speech published in the Chicago Times—the Herseld, of course, will gladly insert it, since he has given in his adhesion to the dootrines it has constantly preached.

had schooled the Democrats of their district to subscribe to the "dirty work" and the Lecompton windle.

On Saturday night a strong effort was made by fuglemen to get the Americans to drop Gilmer and units with the Lecomptonites on Reagen, of Texas. Winter Davis denounced the proposition and declared that if they did ha would vote for Sberman; other Americans also onposed the fusion with the Administration.

The Lecomptonists have offered to go for Boteler, of Vaz, but as he has deserted the Americans and joined their standard, it was a safe offer. You will observe that the slave holders have never once talked of running any Northern Democrat for Speaker. They use them as beasts of burden, but do not entrust them with responsible power; they suspect them all to be unsound at the core, and look on them much as the British do on the Sepoys in their service—they all need watching. "Whife man mighty uncertain." The Democrats have made the fight for Speaker a pure sectional issue. They are stiving to array the South in a solid body against the North. There are 26 Democratic members from the 17 Northern States. But they have no perceptible influence with the alive holders; they are only employed to do "dirty work," as Logan said. Among other beautint serials for boys and girls he has just received the first two rolumes of the "The Percy Family," in which the author Rev. A Great Injustice done to two Young Max.

—Start a false rumor on its rounds through community, and the correction shall never exten it, but limp lamely in its wake. A law days since, the two brothers Felker, young lawyers in this city, were held to bail on an alleged forgery of the name of an illiterate old man named Murphy. It would seem that the latter has something close to learn besides his letters, since forgetfully and maliciously he charged these young men with signing what it has been conclusively shown he signed himself. They have been discharged, honorably, and we gladly out point, and seeing that he could influence n nore, cooly sent him word that he had no term more, cooly sen him word that he had no terms to make with the vanquished rebel; that the Democratic party could take care of itself, and defied his opposition as it despised his support. It is reported that Douglas wept when Old Buck refused him absolution. But there are strong influences being brought to bear on the crabbed old bachelor, and it was thought yesterday that the foregiveness could not be much longer with old bachelor, and it was thought yesterday that the forgiveness could not be much longer with-held. As soon as the "blessing" is received the author of "my great principle" will pro-ceed South for the benefit of his geut. Douglas anys that had the Republicans followed "H. In the early part of the astumn of 1858, after surveying the field pretty thoroughly, the Chicago Refining Company was inaugurated under the Corporation laws of Illinois. Its principal originator was Mr. William M. Belcher, whose name is as familiar with this branch of manufacturing industry, as is that of Winfield Scott in the strategy of war. Mr. Belcher, as all know, was at the head of the immense establishment of the same character in St. Louis, for many years. The capital stock of this new Company as started was \$20,000, but in the srection and completion of the necessary buildings and apparatus, nearly \$70,000 were expended. The first and present officers are:

President.-William M. Balcher, of St. Louis. Servency.-H. W. Hunter, of Chicago, Properer.-E. S. Hunter, of Chicago, Seperialenthest.-E. W. And here let us say that the Chicago Re-

ed, a branch of the St. Louis concern, but an entirely separate and distinct institution.
About the first of September, 1853, the ground was first broken for the erection of the buildings now occupied by the Company, and on the 18th of April following, the establishment was completed and the machinery set in motion. The main edifice is 60 by 106 feet, five stories high, with an addition recently erected 60 by 50 feet. The Retort room is 38 by 38 feet, and the Engine room tort room is 36 by 36 feet, and the Engine room so to the company of the company of the company of Pittaburgh manufacture, of 40-horse power, with a Doctor engine of just one half its capacity, the power to run them being obtained from two tubular and two flue boilers. There is also a stationary steam fire engine, of pect liar beauty and great power, located in the en-gine room, plentifully supplied with hose, for the emergency of a fire, which is almost an im-possibility. It requires about 15 toos of Orms-by coal per day to run this machinery with the

by any means lose the Convention, it would be for a lack of sufficient evidence that the city can accommodate the large concourse of peo-ple which will be drawn together by the event. We understand that the Hon. N. B. Judd, of this city, who is a member of the Committee, is inclined to vote for Chicago, partly because he thinks Chicago is entitled to the Convenhe thinks Chicago is entitled to the Conven-tion, and partly for the reason that it does not seem sufficiently clear that Indianapolis can suitably entertain the delegates and the large audience which will attend upon their sitting. Our views with reference to the propriety of holding it at Indianapolis are unchanged; nor have we seen from any quarter an argument taking issue with the paramount political rea-sons which have been urged in behalf of that sons which have been urged in behalf of that locality. At the same time we submit to the citizens of Indianapolis that it devolves upon them to show beyond question that their city is competent for the entertainment of the guesta, before their claims can be listened to. This is the consideration which proceeds all others. Let this question be met, and, we doubt not the other weight; meaning which

doubt not, the other weighty reasons which point to Indianapolis will have their proper force with the Committee.

To those of our friends who make it a point honor to go for Chicago, and who are disposed to censure all who are not ready to urge the claims of the city in which they live, we the cisims of the city in which they live, we have to say that the interests of the Republican party in the next Presidential struggle are everything, and the interests of particular cities or States are exactly nothing in the scale. This every right-minded man must concede. At the same time, if, for the reasons specified, Indianapolis be not chosen, we are by all means in fa-ver of Chicago. And we are in favor of Chi-cago for the reason that we think Illinois, next ntion will bring a great crowd of people, and

The Bougins Apostacy.

The Bougins Apostacy.

If anything were wanting to confirm the apostacy of Senator Douglas and his complete surrender to the Administration, it is furnished by the following remarks of his ex-editor, Mr. Pryor, of Virginis, in the House of Representatives on the 7th inst.:

"And I think I am justified, also, in appealing to ear associates among the Democracy of the North who are known as "Anti-Lecompton Democrata." I am willing to give them credit for honesty, credit for patriotism, perhaps I will not deny them the praise of, at least, partial wisdom in the course which they pursued in the last Congress. They come protesting that they do not intend to sunder their relations with the Democratic organization. The guatterns from New York (Mr. Clark) yesterday even vanningly proclaimed that he was a member of the Democratic party. These gentlemen thus elaming to belong to the Democratic organization, thus reputilating any association with the Democratic party. These gentlemen thus elaming to belong to the Democratic organization, thus reputilating any association with the Republican party on this floor, I asy I am justified in making an appeal to them, and I am reinforced in that appeal by the allegiance of frendship and political fealty which they profess to Judges Douglas, whose name has been mitarpolated into this debate, and who, I undertake to any si, in all his tosticals, with the Representations of the South on this excusion. the case in the sizery agitation of 1850, and we
could hardly cite more scenciaries evidence of
the follancy of Mr. Eversit's theory that thereis

GOV. WISE WARNS THE SOUTH TO RUSE—YANKE PEDDLERS, 4C.

The following brief letter from Gov. Wise, shows what he considers the necessity of the lakes for its exquisite beauty. On the times. We learn that very stringent measures bave been adopted in South Carolina, Alabama, and in some portions of our State against peddlers, show men, and others who are reasonably suspected of hostility to our institutions. Scarcely, a day passes that we do not hear of some literact, unable to prove himself to be of reiable character, having been expelled from Southers communities. Here is the letter of the Virginia Governor:

RICHMOND, Va., Nov. 25th, 1859.

My Dear Sir :—I have time only to neknowledge yours. Say to your father, and all others, that there are serious times here. We are arming and have need to do so; and the Southern States all had better be rousing. Drive out peddlers and school masters (not well known) from Yankeedom. Yours, &c.,

SUSPICIOUS CHARACTERS. Two men from Baltimore were arrested at Princess Anne, Maryiand, as suspicious charac-ters. At Drummondtown, Virginis, two men have been arrested, and confessed that their in-tention was to incite slaves to insurrection. So says the Someraet Union. TOO FAST.

The Savannah (Ga.) Republican of the 5th instant says.—"Friday night last O. S. Perry went to Mr. C. Chaffer's house, about half-past to elock, and told him that he (chaffer) was an abolitionist, and must leave town immediately. After some further conversation, Perry left the house, and told Chaffer he must remain until he returned; and to prevent the door being locked during his absence, Perry unhinged it and carried it off on his back. While absent, Mr. Chaffer went to the barracks and informed against Perry, who was promptly arrested and brought before the mayor; Saturday morning, and fined \$20 for his patriotism.

and fined \$20 for his patriotum.

MEN OF BUSINESS OBLIGED TO ABANDON THEIR BUSINESS.

Washington, Dec. 8, 1820.

Thirty-two gentlemen, agents of New York and Boston houses, arrived here to-day from the South, and report the feeling of indignation so great against Northerners that they were compelled to return and abandon their business. These gentlemen have been known for years as traders in the South. They also report that Northerners of long residence in the South have been disfigured and driven from their houses.

Elsven business men who were on their way South, returned last night, after having reached a station in Virginia, being turned back by a Vigilance Committee. They say the feeling in atv of the Sistes through which they have passed is very intense against the North, and against the continuance of the Union.

INSURRECTIONISTS IN OUR MIDST.

INSURRECTIONISTS IN OUR MIDST. INSURRECTIONISTS IN OUR MIDST.
We learn from the officers of the steamer Leon that great excitement existed in the town of Dardanells, this State, as they came by that place on their downward trip. It seems that a number of free blacks have been endeavoring to carry off their families, and that they have been assisted by certain white persons who have been prowling around the neighborhood for some time past.

This past week the citizens of the town took the matter into their own hands, and arrested one mass. On Tuesday morning they were going to see what effect the Lynch law would have in the affair. Others are arrested, and a summary punishment will be awarded them.—Little Rock (Ark.) Democrat, 1st.

AN ABOLITIONIST TARRED AND FEATH-ERED IN SAVANNAH. The Savana h Republican, 2d inst., reports that one Sewell H. Flak, a shoe dealer in that that one Sewall H. Fisk, a shoe dealer in that city, was tarred and feathered by certain Georgians on the previous night—his offence being the utterance of Abolition doctrines. The Republican describes the scene as follows:

Sewall H. Fisk, a dealer in boots and shoes, on Market Square, of several years standing, has been the object of suspicion for some time-in consequence of his known A bolition proclipties, which he has taken, as we are informed, some tresules to make known to our slave population. His laiest acts are, enticing negroes into his cellar at night, and reading them all sorts of Abolition documents, and isst dueday night was devoted capacially to the history of the trial of John Brown, and a general exheritation upon the institution of slavery and the advantages of freedom. These facts, as we hear, ears some not he institution of slavery and the advantages of freedom. These facts, as we hear, ears some not he has been, and the advantages of the before a Junice of the Pasce by his nephew and his citer's; and coming to the sars of some parties who have constituted themselves a quasi-vigilance committee. Mr. Pia's store, over which he sleeps, was visited, and he was called out and garged before he could make either noise or resistances. He was then placed in a carriage, and driven a short distance from the city, and the application made to his nuck person. He was then flaves here in the city and the application made to his nuck person.

He also read the inscription for the fail y monument, which Old Brown wrote after least interview with his wife, and which was set to her with his dead body. The inscription we accompanied by some directions about his pretry, and also by the following letter—the lapreceably, that he ever wrote:

Mr. Brown a place for the interment of his body.

"The Brown Farm at North Eiba, is on the highest arable apot of land in the State, if, indeed, soil so hard and sterile can be called arable. The question was asked in my hearing, why Mr. Brown should have chosen a spot so difficult to cultivation, and rielding so poor a requital to labor? and the answer was that he had come there in pursuance of the great purpose of his life. The land formerly belonged to tierrit Smith, and lies near to those large tracts which Mr. Smith had presented as a free gift to certain colored people; and it was to aid these colored people, and through them to benefit their race, that he originally come to siplace so uspromising to the agriculturist."

Banking in Vermonia presents some curious characteristics, to judge from the returns of the Bank Commissioner for the present year. He notes a singular fact with regard to the Bank of Bellows Falls, viz.; that the directors, in violation of the law, have not held a meeting for twelve years. From personal examination the Commissioner finds that the resources of the banks include \$275,056 doubtful debts. The summing up of assets, in some instances, presents a most nondescript and varied bill of terms. Here is a specimen: The Bank of Royalton makes an item of "personal property" to the value of \$295.59, which the Commissioner found to consist of the following: Ten yearlings, one cow and calf, one wheelbarrow, one sorred (The best story paper published,) TOHN H. Geology of Madison and Macoupin Counties.

We find the following paragraph in the Carlinville Spectator:

Prof. Worthen, State Geologist, is of the opinion, from his examinations in Madison County, that he identified the Carlinville limestone at Collinville, and if his opinion in correct, the thinks the limestone lies about 135 feet above the main coal seams worked in Madison and St. Clair Counties. He is more convinced, as his observations are extended, of the lack of continuity in the coal seams of the Illinois besin. There seems to be at least a very considerable portion of the territory underlaid by the coal bearing rocks that afford no workshle seams. If such is the fact, and it can scarcely be doubted, the coal seams first the western part of Macoupin County must become very valuable, sufficiently so to lay, at no distant day, a railroad to the mines.

An Exciting Time.

Quite an exciting time was had among the citizens of Washington, Tazewell County, on Saturday last, occasioned by a long list of suits before Justice Wenger, brought by the Tonica and Petersburg Railroad Company, to recover subsoriptions alleged to have been signed to the reapinal stock of said company. Notwithstanding the fact that the signatures were proven to have been made by proxy, and in some cases without the knowledge or consent of the parties, judgment was rendered in every case (some fifty or more) in favor of the Company, Many of the cases have been appeaded to the Circuit Court.—Provice Union, 13th.

SACRED TRAGERY.—On Tuesday, the Rev.
Mr. Waddell, of Girvan, read from his own pulsi a poetical tragedy, of which he is the author, entitled King Saol, illustrating the power of madness, superstition and jealousy combined. It is a five not tragedy, adhering throughout to the narrative as it appears in Holy Writ, and containing on every page delineations of character, and fine dramatic taste, which would not diagnase the pen of the greatest dramatists.

VALUABLE PERSENT.—I. Russell Parsons, of Hoosiek Falls, New York, recently received from Lord Berwick's estate a full-blooded built dog. It took two expressmen to bring him to Troy, where he got loose and came near slaugh terring a whole drove of pigs. At the Falls was eased in a barn, but a few days since he escaped and ponneed on a valuable horse blooging to Mr. Parsons, taking the animal be the throat, and was only induced to let go hold after half a dozen men had manied him with clubs. Finelly, the saimal was secure and character, and the citizens relieved of the set character. THE NATERIAL DEWED. Ladles' & Children's Furnishi SOYER'S SULTANA SAUCE,
